8. Please note that **processing file "-resp-return.xml**" is for clearing the registration information in the workstation which you returned the license. If you want to transfer your license right to another workstation, please generate a new **Application File ".xml**" and send to us. You will see in the license manager the status is disabled.

# 1.2 Network (Flexnet)

# 1.2.1 Network (Flexnet) Activation

Network Encryption System enables you to share a number of GstarCAD licenses on your office LAN. It gives flexibility of license floating among a working group. Before the network installation, the following confirmation is required:

- 1. Information of product you want to purchase, including version language, version type (standard or professional) and the quantity of licenses.
- 2. Specify server computer to install and execute GStarLMS.exe.

#### Activation:

1. If it is your first time to install GstarCAD NetWork License Manager, please follow the steps below:

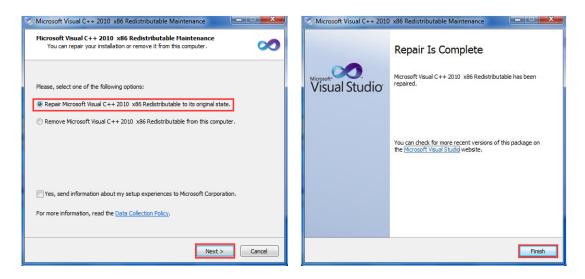

(1) Double click **GstarCAD\_LMS-Online** on the specified server computer, the following window opens, Click **Next** to specify the installation directory of **GstarCAD NetWork License Manager.** 

(2) Click Install after specifying the directory.

(3) Check the first option in the window below, click **Next** and **Finish** to complete programming language maintenance.

(4) Click "Finish" to complete the GstarCAD NetWork License Manager installation.

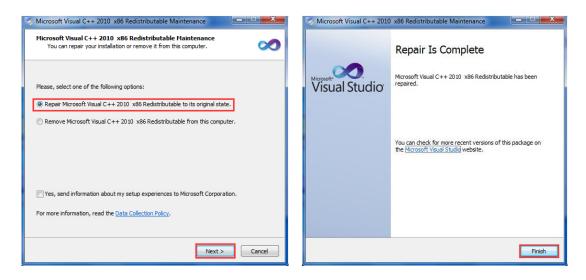

If you installed GstarCAD NetWork License Manager before, please follow the steps below:
 (1) Double click GstarCAD\_LMS-Online on the specified server computer, the following window opens, Click Next to continue.

(2) Click **upgrade** and click **Next** to continue **GstarCAD NetWork License Manager** upgrading.

🔂 GstarCAD NetWork License Manager

		Taurity Jan-	
		10	
	Start Server	Stop Server	ReRead License File
		Force Server Shutdown	
	Advanced settings >>		ecked to shut down a license server
		when licenses are borrowed.	

You can start server either manually or automatically, it is to select Start/Stop/Reread option to control the server in **Start/Stop/Reread** tab or control sever automatically in **Config Services** tab by checking User Services and Start Server at Power Up when start the computer.

## 1.2.2.2 Client Setting

After the setting of server, you have connected server to user client in order to activate GstarCAD 2016 from user client machine.

1. After finishing the installation of GstarCAD 2016 on user client machine, start GstarCAD 2016, **Welcome to GstarCAD** window pops up automatically, **Select a version** and click **Activate**.

2. A GstarCAD Register window will pop up, click Next after selecting Network Software-encryption(Flexnet).

Stand-alone	
C Hardware-encryption	
○ Software-encryption(Flexnet)	
Network	
C Hardware-encryption	
<ul> <li>Software-encryption(Flexnet)</li> </ul>	

3. Specify server IP address at Server IP Address window.

Server IP	Address	
Set Serv		ldress:
192.168.	0.66	
Port 2	7000	(27000-27009)
[	(	ок

4. Click **OK** button to activate GstarCAD. With this client activation method, when you close GstarCAD 2016 software ,the license will be returned to server automatically.

#### 1.2.3 Borrow and Return the license on the client

What is more, GstarCAD 2016 provides the function that you can borrow and return license from user client. This section describes how to borrow license on client. In some special case, you need to transfer one or more than one nodes to individual computer. For example, you need to activate GstarCAD 2016 on a laptop for a certain time, in order to bring it to other place. It is great way to use this function.

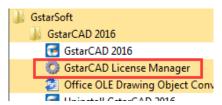

#### **Proceed to operate**

Requirement conditions:

- 1. GstarCAD 2016 has to be installed on the machine or computer.
- 2. It has to be in a same local area network, and connect to server.

#### **1.2.3.1 Borrow the license on the client**

1. You can find the menu in start-all program:

2. Click GstarCAD License Manager, then GstarCAD License Manager window will pop up.

Product/Edition/Language	Serial Number	Fulfillment Type	Status	Expiration da	Fulfillment ID	Trustflag
< [						
- L:						1

1. Click Borrow. Follow the introduction on your screen.

Borrow Network License	X
Borrow A License(Using Network license S	erial Number)
Network license Serial Number:	
IP or Server name:	
Port:	27000
Expiration date:	2016/ 5/ 1
	Borrow

2. Input the **Network license Serial Number** in the space blank of Network license Serial Number: (3401-DF07-0000-0100-C9D9-9801-0000-0400), the same one with the sever.

**IP or Server Name:** input the server IP address (like 192.168.0.66)

**Expiration Date:** Date to borrow and return, you just only need to fill in the date you return because it is counted from the date when you borrow Click.

Click **Borrow**. Restart GstarCAD 2016, then GstarCAD 2016 succeed to activate, and you can bring your computer to other place you want. However, the quantity of nodes is reduced until the borrowed one is to be returned.

Borrow Network License		×		
Borrow A License(Using Network license \$	Serial Number)
