# GstarCAD8 Installation and Activation

### Installation

Users can visit www.gstarcad.net to download GstarCAD8 to your computer or server.

GstarCAD8 installshield wizard will guide the user to complete successfully the installation of the software in the operating system. GstarCAD8 standard and professional versions are not the same. The software will automatically distinguish according to the user when registering dongle or serial number. The installation steps are as follow:

1.- Double-click the executable file downloaded and the "Gstarcad-InstallShield Wizard" dialog box will pop up. Click the "Next" button to continue the installation. See figure 1-1.

2.- The "License Agreement" dialog box is displayed. If you agree, check "I accept the terms of license agreement" and click the "Next" button to continue the installation. See figure 1-2.

Figure 1-1

- 3.- The "User Information" dialog box pops up, enter your user information and click the "Next" .See Figure 1-3.
- 4.- Then choose the destination path where setup will install the files and click the "Next" button. See Figure 1-4.

Figure 1-4

5.- Then "The install option" dialog box pops up, you can choose between uncheck or check the VBA option. To continue with the installation just click the "Next" button. See figure 1-5.

6.- Then the wizard is ready to begin the program installation. If you want to review or change any of your installation settings just click the "**Back**" button. Click the "**Install**" button to continue with the installation. See figure 1-6.

7.- Then "The GstarCAD wizard comple" dialog box pops up. The GstarCAD wizard has successfully installed the program. Click the "Finish" button to exit the wizard. See figure 1-7.

# Activation (Software-encryption)

### Stand-alone (Flexnet) Activation

1.Double click the icon of GstarCAD8

you will see the interface as below:

E

Welcome to Gs	tarCAD!	
<image/>	The trial will	r(s) 0

2. We provide 30 days to trial, also you can select a GstarCAD Version according to your need then click activate to get a permanent license.

3. Select Stand-alone Software-encryption (Flexnet) and click Next to open Activation window.

Select Activation Mode	
Stand-alone	Ľ.
C Hardware-encryption	
Software-encryption(Flexnet)	
- Network	p.
C Hardware-encryption	
C Software-encryption(Flexnet)	
Next	

4. At Step1 of Activation window, enter Serial Number which is provided to you when you purchase GstarCAD8 then click Generate to generate Application File.

P Activation	3

	Browse	Generate Process

8. Please note that processing file "-resp-return.xml" is for clearing the registration information in the workstation which you returned the license. If you want to transfer your license right to another workstation, please generate a new Application File ".xml" and send to us. You will see in the license manager the status is disabled.

### Network (Flexnet) Activation

Network Encryption System enables you to share a number of GstarCAD licenses on your office LAN. It gives flexibility of license floating among a working group. Before the network installation, the following confirmation is required:

- 1. Information of product you want to purchase, including version language, version type (standard or professional) and the quantity of licenses
- 2. Specify server computer to install and execute GStarLMS.exe.

#### Server Setting and Activation

1. When running GStarLMS on the specified server computer, the following window opens, Click Next to specify the installation directory of GStarLMS.

2. Click Install after specifying the directory and start installing GStarLMS.

3. After the installation is finished, a utility program group called "GstarCAD Network License Manager (server)" is added Windows Programs in which you will find:

🛅 GstarCAD NetWork License Manager 🔸	💢 GstarCAD License Manager(server)
	😰 LMTools
	📩 Uninstall

License Manger (server): Managing the list of licenses on the server computer. LMTools: A tool which is used to manage license server for network. Uninstall: Uninstall program

Click License Manager (Server) to set license server:

#### 4. Click to run License Manager (Server)

3. Specify server IP address at Server IP Address window.

4. Click OK button to activate GstarCAD.

### How to Borrow and Return License Online

What is more, GstarCAD8 provides the function that you can borrow and return license on line. This section describes how to borrow license on line. In some special case, you need to transfer one or more than one nodes to individual computer. For example, you need to activate GstarCAD8 on a laptop, in order to bring it to other place. It is great way to use this function.

#### Proceed to operate

Requirement conditions:

- 1. GstarCAD8 has to be installed on the machine or computer.
- 2. It has to be in a same local area network, and connect to server.

### How to Borrow License Online

1. You can find the menu in start-all program:

2. Click GstarCAD License Manager, then the GstarCAD License Manager window will pop up.

Q GstarCAD License Manager(1.1)							
Product/Edition/Language	Serial Number	Fulfillment Type	Status	Expiration da	Fulfillment ID	Trustflag
